Wireless Business Internet Speeds

- Speeds are offered on an up to basis, that is the maximum connection speed available.
- The actual speeds for the service may vary due to a range of factors and may be slower than the maximum connection speeds. Factors include demand on the network, local conditions, Internet traffic, line condition, type of connection, hardware and software or the data being transferred.
- Devices connected via WiFi may experience slower speeds than those connected via an Ethernet cable.
- If the selected plan attainable speed is greater than 12% lower than the plan speed (eg less than 44Mbps attained on a 50/20) then the next lower plan speed will be offered at the applicable rate, or a 10% discount can may be applied to the monthly charge.
- All plans include unlimited data, there is no shaping or restrictions fair usage policy applies
